

# KD-2000

## Hi-Speed USB Device Server for KODAK

Provides Local Area Network Connectivity for KODAK All-in-One Printers

## Enjoy full functionality of your KODAK Printer on a Ethernet network

### Features & benefits

- Convert your KODAK All-in-One Printer to a shared Local Area Network resource.** The KD-2000 provides fast Ethernet connectivity for your KODAK Printer, instantly making it accessible anywhere on your LAN. The USB 2.0 Hi-Speed interface support assures seamless data transfer, thus it is most ideal for sharing your printer, scanner or other USB device with one or more computers on your network.
- Smart utility for easy device management.** The Hi-Speed USB device server comes with "SX Virtual Link" which allows you to visually manage all of your networked KODAK and USB devices in one window. You can remotely know the connected device availability in your LAN on a realtime basis. You can also use the Printer application software as if it were directly connected to your PC. Simply print from your application like you normally do.
- Compatible with the following KODAK products:**
  - EASYSHARE 5300 All-in-One Printer
  - EASYSHARE 5500 All-in-One Printer
  - ESP 3 All-in-One Printer
  - ESP 5 All-in-One Printer

### Networking example

### Specifications

!Macintosh compatible!
